

Patient Services Grant Program

The Patient Services Grant Program provides assistance with insurance premium payments, co-pays, deductibles and out-of-pocket medical costs for individuals who have a bleeding disorder who fall outside the guidelines of the Medical Insurance Grant Program. Bleeding disorders are specifically defined as hemophilia A or B and von Willebrand Disease. Single-factor deficiencies may be considered on a case-by-case basis. This program is fully funded by HANJ and all applicants are reviewed by the Patient Services Committee for approval.

For more information about the Patient Services Grant Program or to apply for the Patient Services Grant Program, please fill out the Initial Grant Application Request Form and send to HANJ or contact HANJ directly at (732) 249-6000.
